

Access your business on the go with One Click Contractor's Android and iOS Apps

Streamline the Contractor Sale Process

One Click Contractor connects a contractor's technologies together enabling efficiency, accuracy, and speed to streamline the contractor sales process. This allows contractors to take on more customers, do more jobs and ultimately make more money. It's as easy as connect, click, complete. Contractors can enjoy the same benefits of the web application, now available to access while you're on the go, via their tablet or smartphone.

With this app you can:

- Turn device horizontal - get all customer or job details side by side
- View customers information, make phone calls and get directions or email customers
- Leverage the same power and speed you experience in the web version to upload from a third party or add manual measurements
- Access all your design tools, presentations, and photos
- Easily create personalized estimates and agreement in seconds
- Check status of signatures - resend invite to sign the agreement, or have the customer sign directly on the screen

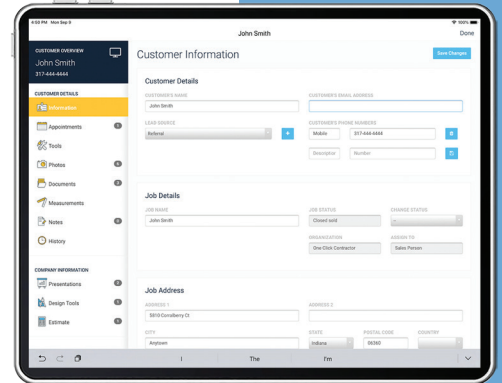

With One Click Contractor it's as simple as:

Connect. Click. Complete.

Download the One Click Contractor App on Android or iOS now!

Easily organize and build customers and jobs with all the necessary information in one place

Move seamlessly from estimate to agreement with the click of a button and create a custom-tailored agreement for each customer

Create clear, consistent, and fast estimates anytime, anywhere
